About Us

Exploits Valley Air Services LTD.

is an incorporated aerospace/aviation company operating in the Town of Gander, Newfoundland, Canada. EVAS is comprised of an extremely experienced and highly skilled team of Aircraft Maintenance Engineers authorized to certify maintenance of avionics systems, structural repair of composites, sheet metal and tubular structures. Our team of AME'S, Structural Technicians, Apprentices and Support Personnel are all dedicated to performing and maintaining the highest quality standards as demanded by the aerospace industry.

Our 10,000 square foot modern hanger facility incorporates all of today's up to date technology and equipment. This realistic asset is designed to meet all of your operational requirements, delivering the highest safety standards to our customers. As a part of our comprehensive guidelines, the utilization of electronic maintenance tracking on all our aircraft has been the foremost addition of ensuring that only the utmost standards of safety exist.
